

Affinity from Skyline IFE

The strength, beauty and loyalty of horses has long captured the hearts of many people from around the globe, including the team here at Skyline IFE. Skyline IFE is delighted to sponsor Florida, a beautiful mare who has recently begun her dressage career and is beginning to do very well indeed! Dressage is a stunning performance of horse and rider in harmony, performing well rehearsed movements known as 'figures'. These are carried out in an arena where markers are symmetrically placed, showing where the movements should start and finish. Each rider proceeds to a centre line then halts to salute while their horse must stand, immobile. In every competition, the walk, trot, and canter are then performed, with smooth

transitions between each pace. There are also more technical performance moves, including The Passage, The Pirouette, The Half-pass, Flying Change of Leg and The Piaffe.

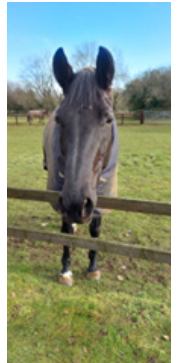

A pleasure to watch, it takes precision, partnership, dedication, and skill to impress. Rather like our work at Skyline IFE.

We will post updates on Florida's progress throughout the year. Meanwhile here's a quote by George Eliot with an apt message for everyone including Florida, her owners, trainers and riders - ***'Go forward with joyful confidence'***.

And of course work/life balance is very important too!

Here are two recent photos of Florida relaxing at home.
